TAKE THE CLASSROOM OUTSIDE!

For over 25 years, the Kinark Outdoor Centre (KOC) has been partnering with elementary and secondary schools, colleges, universities, summer camps and community organizations to facilitate outdoor recreation and adventure education programs.

KOC offers a people-focused, hands-on learning experience that participants will remember, talk about and learn from for the rest of their lives.

WHY CHOOSE THE KOC?

At Kinark Outdoor Centre our highly-skilled outdoor educators and program staff will curate safe, age-appropriate programming with a focus on learning connections to the Ontario curriculum through adventures and experiences. All aspects of your visit to the KOC will promote environmental ethics and culture.

When you bring a group to the KOC, you are also supporting the important interventions and work that we facilitate on weekends and throughout the summer for children with complex neurological disorders and their families.

Thank you for choosing us!
